Worktop: Star Galaxy Granite. Lighting: Flexy LED.

A fan of color swatches is shown, fanned out from the top left towards the bottom right. The swatches are arranged in a grid pattern, with each swatch having a small white square in the bottom right corner. The colors transition from light yellows and greens on the left, through blues and purples in the middle, to reds, oranges, and yellows on the right. The fan is resting on a dark brown wooden surface with a visible grain.

## The Colour Studio

# The Worktop Studio

# A Lifestyle Collection

The 'Worktop Studio' is a collection of timeless and luxurious kitchen work surfaces.

The collection comprises Granite, Quartz, Solid Surface and Timber Worktops to suit all tastes from traditional to contemporary.

The range offers the most popular options for discerning customers.

## Contents

[Granite Colour Palette](#)

[Quartz Colour Palette](#)

[Granite and Quartz  
Edge Profiles](#)

[Imagine with Mistral](#)

[Timber Worktops](#)

# Granite Colour Palette

The Worktop Studio Granite work surfaces showcase a popular spectrum of colours. Granite offers a prestigious look and provides durability for years to come. The applications are endless for granite: create a worktop that is both natural and unique. Granite is a Natural product. Colours and patterns may vary accordingly.

## Granite Group 1

Black Pearl **Group 1**

Eden Grey **Group 1**

Steel Grey **Group 1**

Tan Brown **Group 1**

For technical reasons connected with colour reproduction, colours shown may not be an exact representation of the actual product. Please ask for a sample before ordering.

Please note all images are lifestyle images and do not necessarily represent the product range.

## Granite Group 2 and 3

Impala **Group 2**

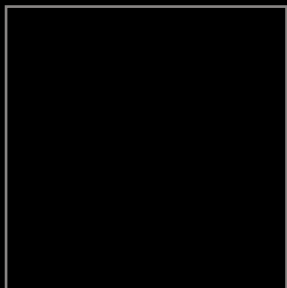

Verde Ubatuba **Group 2**

Baltic Brown **Group 3**

Ivory White Fantasy **Group 3**

Premium Black **Group 3**

## Granite Group 4 and 5

Nero Cosmos **Group 4**

Star Galaxy **Group 4**

Giallo Veneziano **Group 5**

## Quartz Group 4

Bianco Polished **Group 4**

Dark Mist **Group 4**

Light Mist **Group 4**

# Quartz Colour Palette

With a more uniform finish Quartz offers a versatile colour palette offering the freedom for self-expression in design. Star Quartz with the addition of mirror chips, these worktops gives the illusion of light and reflection enhancing any kitchen project.

For technical reasons connected with colour reproduction, colours shown may not be an exact representation of the actual product. Please ask for a sample before ordering.

## Quartz Group 4

Beige Star Group 4

Nero Star Group 4

Grey Star Group 4

## Granite and Quartz Edge Profiles

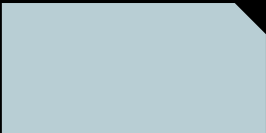

The Worktop Studio offers a selection of the most popular edge profiles to choose from.

For a modern subtle profile choose the pencil round edge which will work in almost any kitchen setting. Alternatively choose a more traditional profile such as the Ogee to create a stunning design feature with an elegant classic finish.

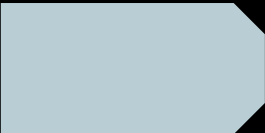

The profiles will complete the overall look of the worktop and bring a truly unique style to the finishing.

## Imagine with Mistral

MISTRAL is a 25mm thick SOLID surface worktop range. There is no chipboard, MDF, or particleboard substrate, just 100% solid surface!

The MISTRAL worktop range combines the breathtaking looks of natural quartz and stone, with the practicality and creative freedom of acrylic based solid surface material to deliver outstanding product value and exceptional aesthetic results.

# MISTRAL

## Durable and Strong!

MISTRAL worktops are entirely non-porous so there are no moisture ingress problems and without a substrate there are no internal joints that may undermine the structural integrity of the worktop.

## 10 Year Manufacturer's Guarantee – Field Tested!

Our 25mm solid surface worktops have been tested in a variety of high impact commercial applications for over 10 years. Be assured, MISTRAL worktops are designed and produced to last!

## Beautifully Seamless Joints!

MISTRAL worktops can be jointed and finished so that the seams are not only smooth but inconspicuous so that your surface flows unbroken as if crafted from a single piece.

## Feature-laden Design Opportunities!

-  MISTRAL's thick surface offers a wealth of possibilities for adding features such as drainer grooves, recessed wet areas around fitted sinks and attractive edge profiles.
-  MISTRAL's pure structure presents the perfect medium for design as it can be shaped to follow your imagination. Free from restriction you can create elegant curves to complement shaped door layouts and tight radii can be used to add detail and character for a truly unique living environment.
-  MISTRAL worktops utilise all the inherent qualities of solid surface technology to provide the ideal surface for your home. It is non-porous so is easy to clean and hygienic as well as being resistant to staining.
-  MISTRAL withstands the general wear and tear of domestic use and has the ability to be replenished so that any marks and scuffs that may appear over time can be abraded away to leave your surfaces looking as though they had just been installed.

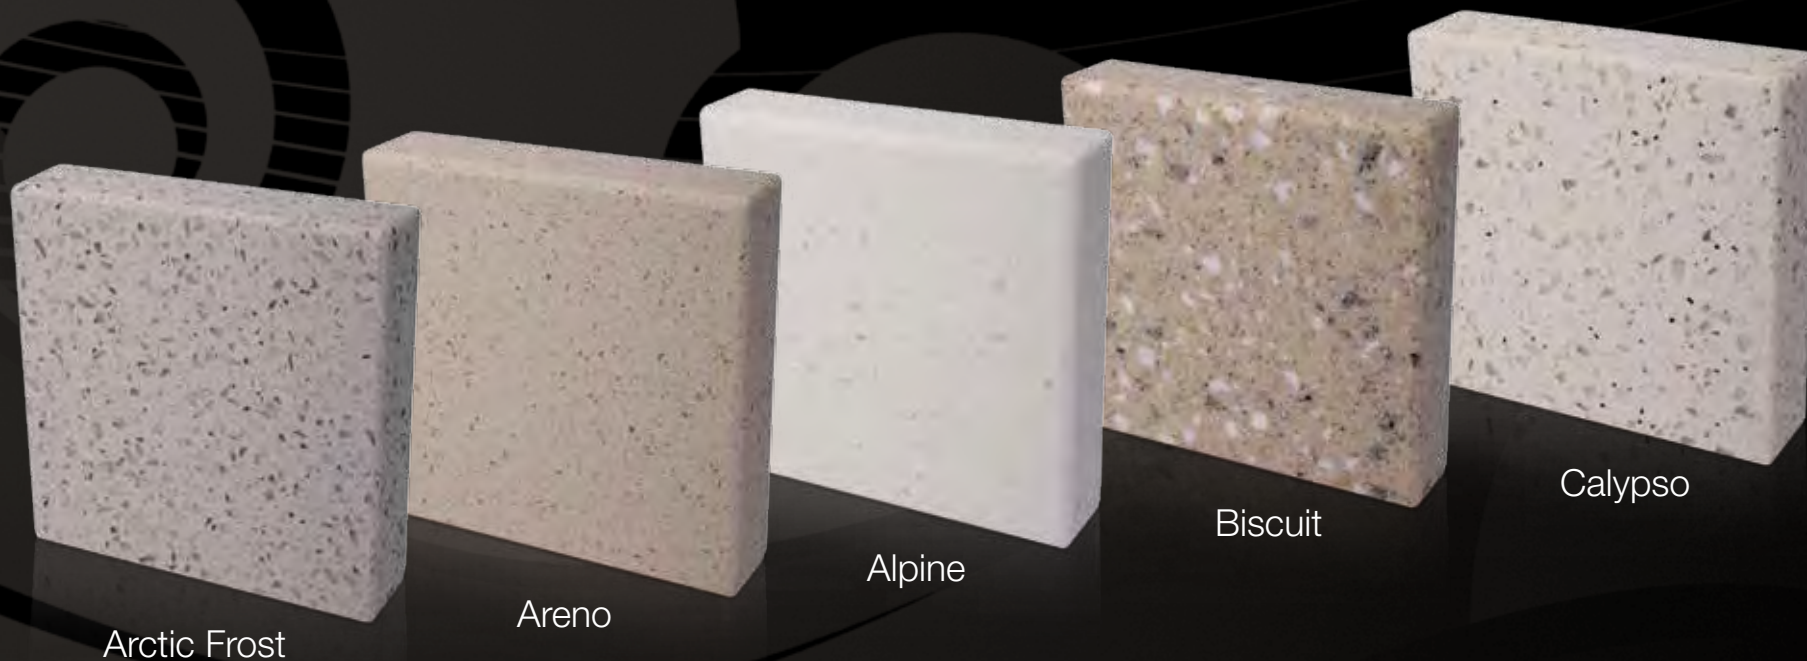

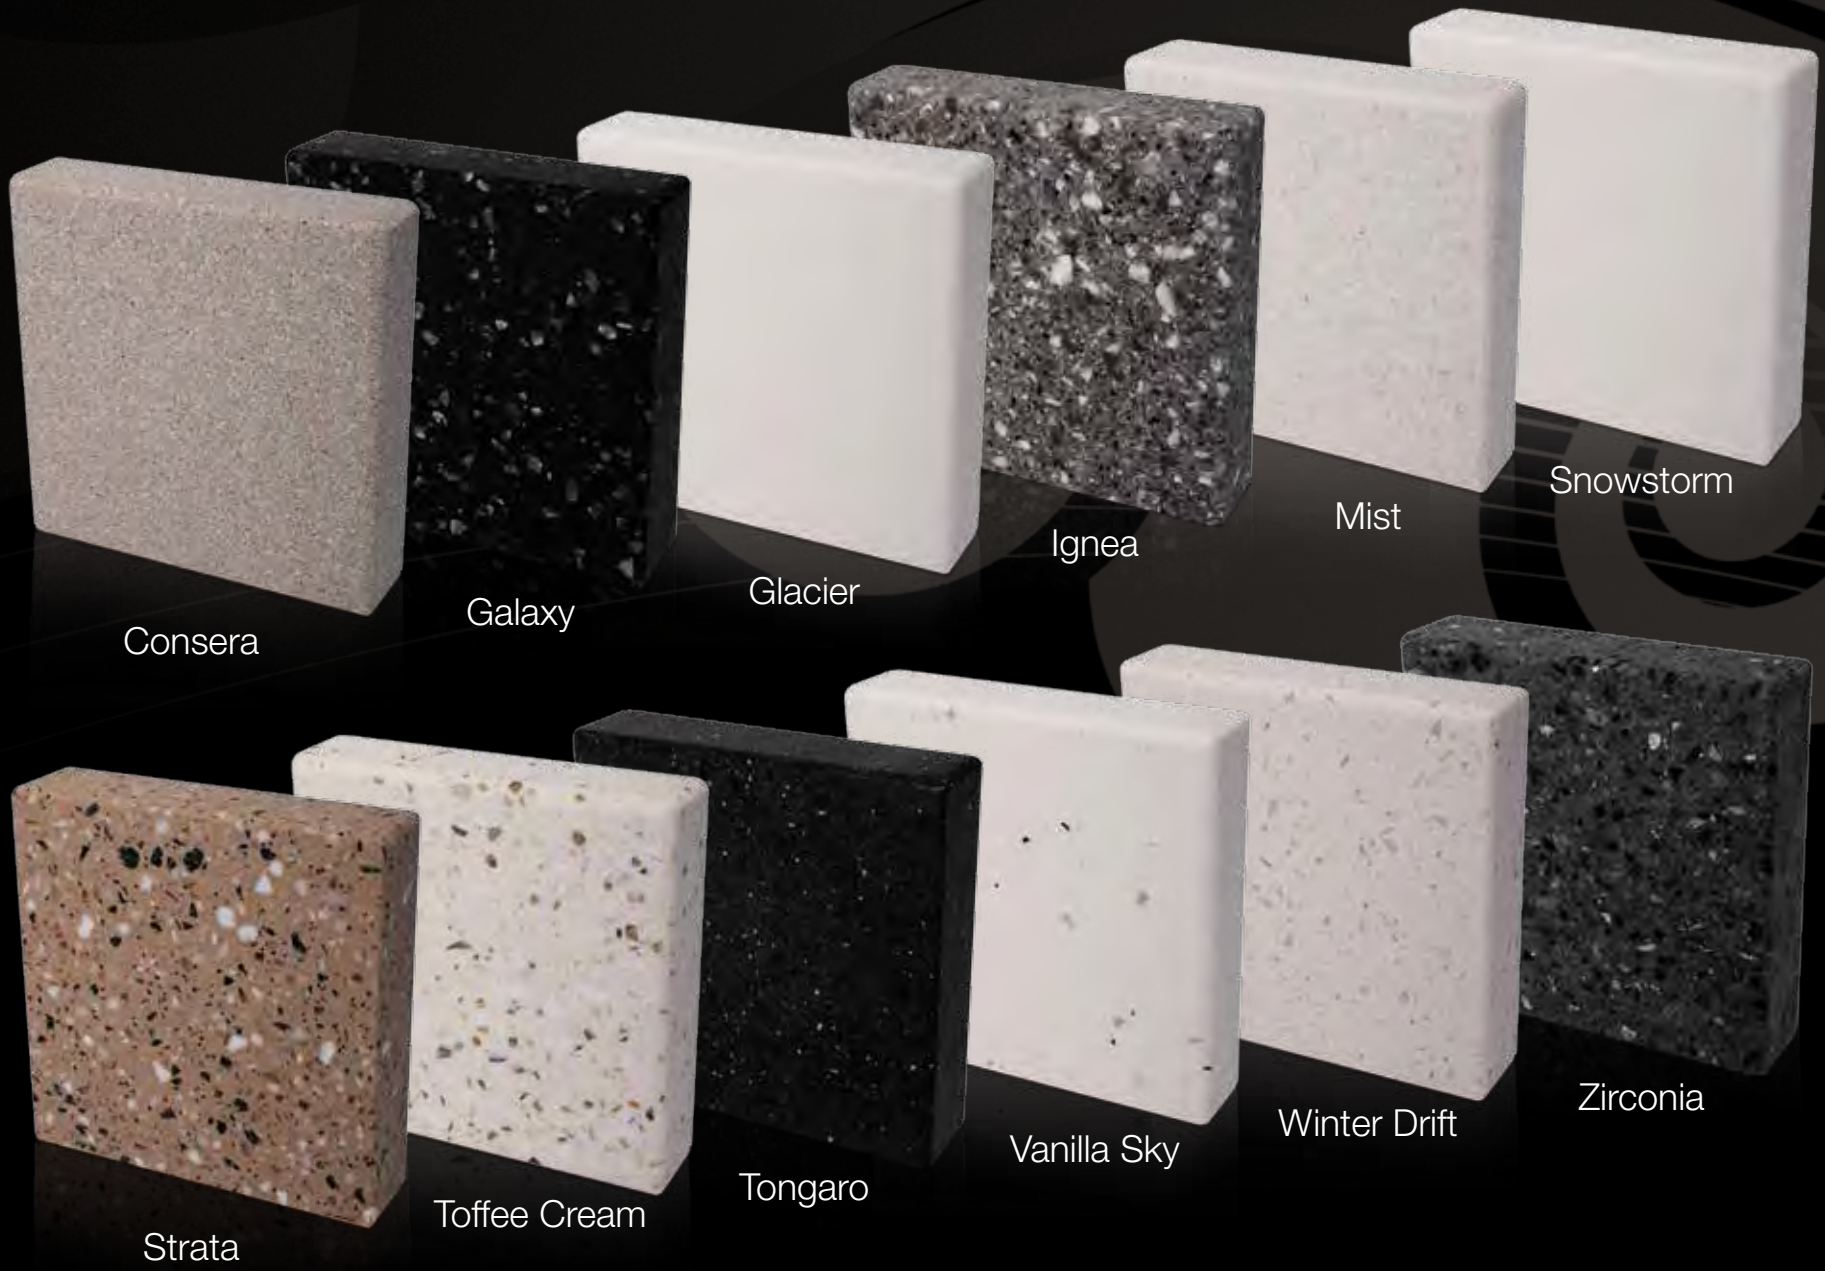

# The Colours of MISTRAL

The MISTRAL spectrum provokes an abundance of ideas for colour schemes and combinations as each element of the range contains a fusion of hues and shades. Taking inspiration from some of nature's most beautiful natural stone and quartz we have designed a colour palette to fuel the imagination of architects, designers and homeowners alike.

With our solid surface experience and technologies we have developed these worktop decors with a depth and distinction that will help create the perfect living space.

'Whether your style is elaborate or minimalist, traditional or ultra-modern, your ideal is MISTRAL'

# Timber Worktops

Solid timber worktops bring a natural beauty into your kitchen. Timber worktops are both aesthetically pleasing and bring a unique character to your kitchen design. With their timeless look and tactile feel, our wooden worktops create a beautiful individual statement in both traditional and contemporary environments.

We contribute to the World Wildlife Fund and we are committed to conserving the environment. With this philosophy in mind, we have decided against supplying timbers which generate environmental problems with their harvesting and so we do not sell any African timbers. All our wooden worktops are purchased with particular attention to ensuring that the timber is from an environmentally sustainable source.

Wood has a natural defence against bacteria and is considered to be the most hygienic of all kitchen work surfaces.

Our timber worktops are constructed with solid staves and, if correctly installed, will give a lifetime of trouble-free use.

## Full Stave Oak

Full Stave Oak

Natural and quintessentially English. Full Stave Oak has a lot of character. The first choice for those looking for durability, strength and classic traditional elegance.

These worktops offer a stave width between 60mm and 90mm which give the effect of a solid homogenous worktop without the striped appearance.

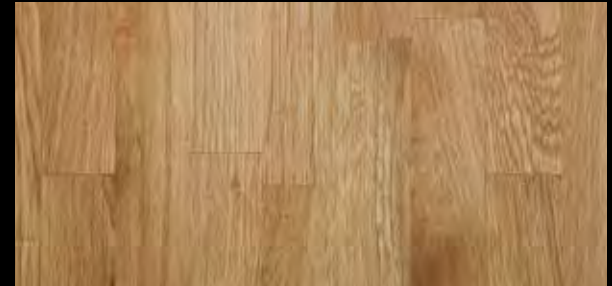

For technical reasons connected with colour reproduction, colours shown may not be an exact representation of the actual product. Please ask for a sample before ordering.

Please note all images are lifestyle images and do not necessarily represent the product range.

## Finger Jointed Worktops

Prime Oak

The first choice for those looking for durability, strength and classic traditional elegance. These worktops have an extremely consistent finish.

Natural Oak

Natural and quintessentially English. Rustic finish with lots of character. Extremely hard wearing and durable with more natural features than Prime Oak.

For technical reasons connected with colour reproduction, colours shown may not be an exact representation of the actual product. Please ask for a sample before ordering.

Please note all images are lifestyle images and do not necessarily represent the product range.

## Finger Jointed Worktops

Natural Steamed Beech

Rustic finish, perfect for that traditional look.

Walnut

A classic hardwood of immense character and warmth. Walnut worktops have fantastic grain patterns and colour variation.

# Sinks and Taps

Astracast is recognised as a market leader in the manufacture of kitchen sinks, taps and accessories, manufacturing for over 29 years across all three sink materials: Stainless Steel, Composite Granite and Ceramic.

Proud to design, develop and manufacture in the UK, creating stunning innovative designs with industry leading quality that will take pride of place in your home for many years to come.

All Astracast products have a comprehensive guarantee which covers the sink against the unlikely event of any material or manufacturing defect. This guarantee is just one part of Astracast's commitment to total quality, assuring you that all products will give you the highest level of performance and lasting good looks for years to come.

## Onyx

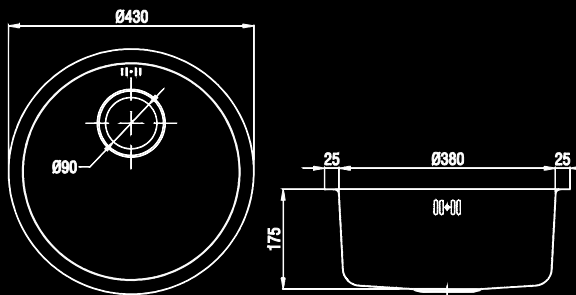

Polished Round Bowl

Product Code: ONYXRB

### Features

- Bowl Diameter: 430mm
- Bowl depth: 150mm
- Minimum Base Unit: 500mm
- Includes waste and overflow
- Lifetime guarantee

## Onyx

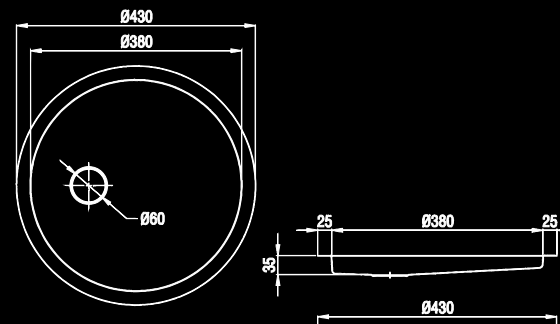

Polished Round Drainer

Product Code: ONYXRB

### Features

- Drainer Diameter: 430mm
- Drainer depth: 34mm
- Minimum Base Unit: 500mm
- Includes waste
- Lifetime guarantee

## Onyx

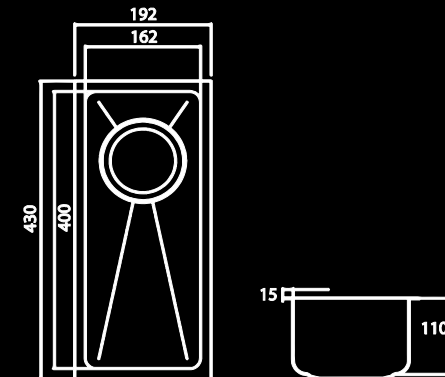

Brushed 4016 Bowl

Product Code: ONYX4016

### Features

- Overall Dimensions: 192 x 430mm
- Bowl depth: 110mm
- Minimum Base Unit: 400mm
- Includes waste
- Lifetime guarantee

## Onyx

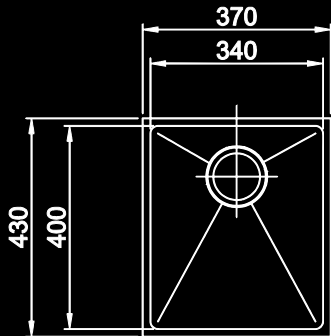

Brushed 4034 Bowl

Product Code: ONYX4034

### Features

- Overall Dimensions: 370 x 430mm
- Bowl depth: 225mm
- Minimum Base Unit: 450mm
- Includes waste and overflow
- Lifetime guarantee

## Onyx

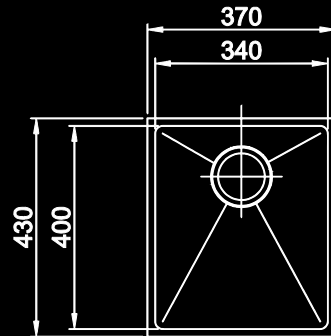

Brushed 4034 Drainer

Product Code: ONYX4034D

### Features

- Overall Dimensions: 370 x 430mm
- Bowl depth: 25mm
- Minimum Base Unit: 450mm
- Includes waste and overflow
- Lifetime guarantee

## Onyx

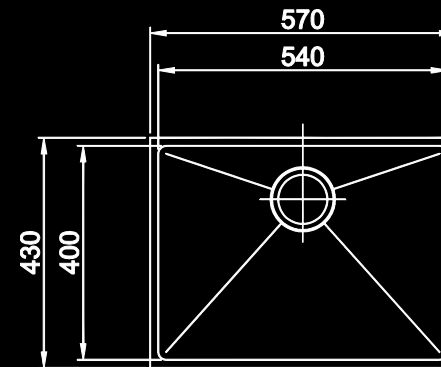

Brushed 4054 Bowl

Product Code: ONYX4054

### Features

- Overall Dimensions: 570 x 430mm
- Bowl depth: 225mm
- Minimum Base Unit: 800mm
- Includes waste and overflow
- Lifetime guarantee

## Onyx

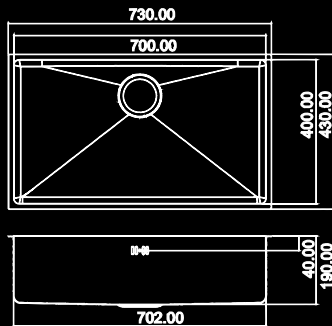

Brushed 4070XL Bowl

Product Code: ONYX4070

### Features

- Overall Dimensions: 730 x 430mm
- Bowl depth: 190mm
- Minimum Base Unit: 800mm
- Includes waste and overflow
- Lifetime guarantee

## Onyx

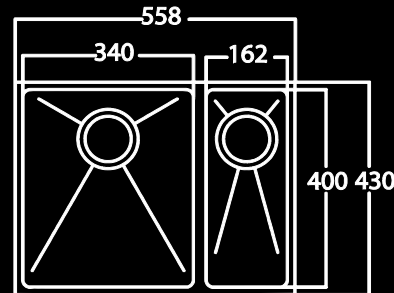

Brushed 4034 1.5 Bowl

Product Code: ONYX4053

### Features

- Overall Dimensions: 558 x 430mm
- Main bowl depth: 225mm, Half Bowl: 110mm
- Minimum Base Unit: 600mm
- Includes wastes and overflow
- Lifetime guarantee

## Onyx

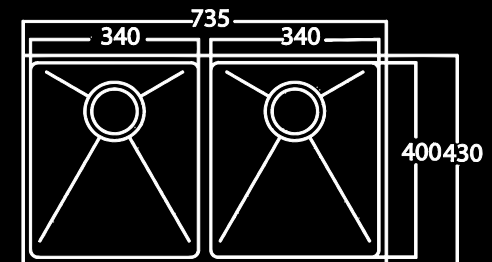

Brushed 407 2.0 Bowl

Product Code: ONYX40702B

## Wicker Baskets

These kitchen wicker baskets offer a practical and attractive storage solution for fruit and vegetables.

The natural materials and simple design will complement any kitchen, whilst the wicker allows air to circulate around the fruit and vegetables, keeping them fresher for longer. The baskets are fully removable making them simple to clean and fill, and can be installed behind a normal sized door.

Each wicker basket is supplied complete with a wooden frame and runners. The frame gives added strength to the wickerwork and the runners allow the basket to slide out from the unit for easy access.

Fitting of the unit is very simple, with pre-drilled holes in the runners to fix to the cabinet sides making this range ideal to retro-fit into an existing kitchen.

### Sizes Available

- 500mm
- 600mm

## Stainless Steel Plinths

Stainless steel plinths are finished in a contemporary brushed steel effect with a clear plastic edge strip to give a neat finish. Use with gloss doors for the ultimate modern contrast.

Left hand plinth

Right hand plinth

## Kitchen Extractors

### EX600C

- 600mm Curved glass chimney
- Stainless steel and glass
- Electronic push controls complete with halogen bulbs and aluminium filters

- On and off switch
- Power supply cable
- 13A, 240V
- Installed in a 100mm dia hole
- Best value option

Sige Storage Solutions

The Sige product range has gained an enviable reputation across the world for top quality performance and reliability. If you want quality wirework that is problem-free long after installation then Sige should be your automatic product choice. Sige offer exceptional quality and excellent value for money. The Sige range is continually being improved and is now seen as one of the top quality wirework brands in the world.

The Sige products are tested to the exacting 'CATAS' standards with particular focus on technical, food-safe and environmental aspects. Rest assured that production of the Sige product has a minimal effect on the environment.

Each product is subjected to an extreme test of 80,000 or 100,000 cycles. To put this into perspective, 100,000 cycles is equivalent to at least 15-20 years normal use in an average kitchen.

The following products are selected from a huge range as being the best sellers in the Sige range but many more products can be available on request on realistic lead times. Choose from our fantastic two stylish kitchen storage designs: Classic or Plus.

Classic  
(Round Bar) Style

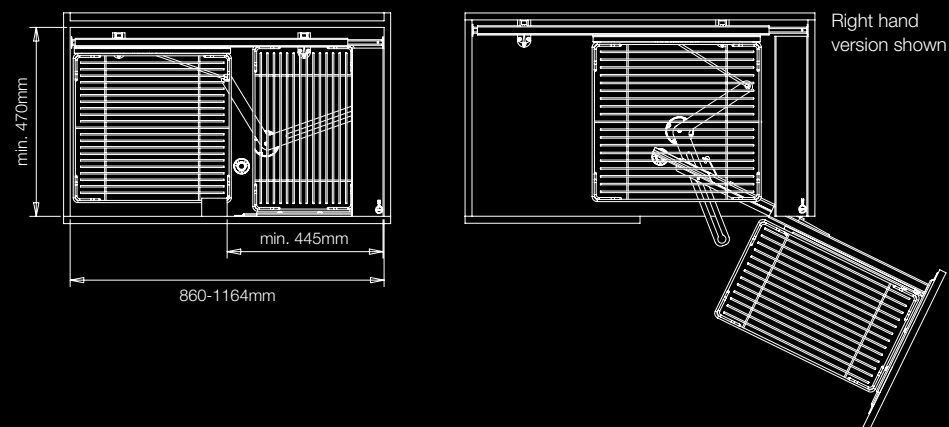

Plus  
(Flat Bar) Style

# Detergent Pullout

## Detergent Pullout

**Features:** Base pullout for undersink unit on soft close runner.  
Min unit width 450mm.

Code	Description	Min Carcase size	Loading
DP300	Detergent pullout,300mm	230x450x440mm	30kg
DP450	Detergent pullout,450mm	380x450x440mm	30kg

# Lockable Detergent Pullout

## Lockable Detergent Pullout

**Features:** Child proof lockable slide-out detergent basket.  
Ideal for undersink storage.

Code	Description	Min Carcase size	Loading
LDP300	Lockable detergent pullout,300mm	230x480x500mm	25kg

Note: Carcase sizes given are internal dimensions in width x depth x height

# Lighting

# A visionary company specialising in contemporary lighting

DOMUS Line is an Italian company that specialise in the design and development of innovative lighting products. They offer a portfolio which includes stylish and inspirational ideas. The synergy in the philosophies of both MAK and DOMUS Line allows the constant refinement of innovative products delivered at affordable price levels.

## Performance

An LED (“Light Emitting Diode”) has low energy consumption and high potential yield. Produced and built without interior filaments (which are more fragile and subject to rupture), or mobile parts, LEDs ensure a longer life and more dependability compared to other lamps.

The main advantages of LED technology:

- Use of LEDs allow very small light fittings
- Wide array of colour temperatures
- Long life
- Sturdiness
- Zero maintenance costs
- More lighting efficiency
- Clean light, because LEDs have no IR or UV components
- Safety, because LEDs are very low voltage
- Very small amount of heat generated (no risk of burns)

## Quality and Control

The development process of LED products is complex and delicate. It takes attentive quality controls to produce a fitting that complies with requirements. Therefore DOMUS Line has controls at each step of the production process in order to produce fittings with top quality and top performance.

- Selects the best LEDs on the market
- Designs optics in thermoplastic material
- Utilizes advanced technology for printed circuit boards
- DOMUS Line verifies the correct dissipation guaranteeing the respect of the imposed limits not only from the safety directives but also to guarantee the operative life of the LED
- Selects drivers to control the technical specifications of LEDs producers
- Offers highly functional accessories that create eclectic light direction, all the while respecting safety and visual comfort

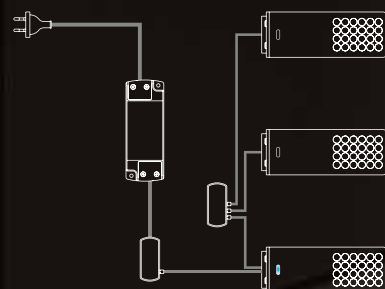

DOMUS Line®

# Skate

- The new 'must have' of under cabinet lighting
- Innovative Touch LED dimming switch integrated
- Patented design by Bavuso Giuseppe
- 30% more light output compared to 20W of halogen

## SET SKATE TLDM 3X

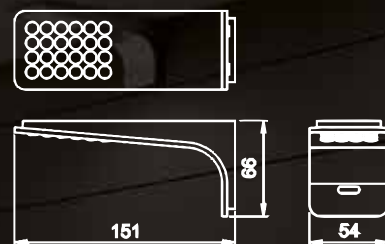

with master Touch LED switch and converter

# FlexyLED RGB

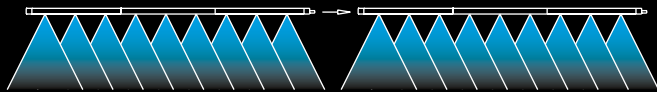

## Universal Installation

There are four modules equipped with micro connectors for the installation in a continuous line that can go up to 5000mm in length.

The 2000mm power cord is sold separately complete with a MultiPlug connector.

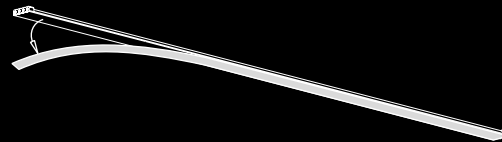

Thanks to the micro connectors, the continuous line connection does not have shadow areas because the distance between the LEDs is always the same.

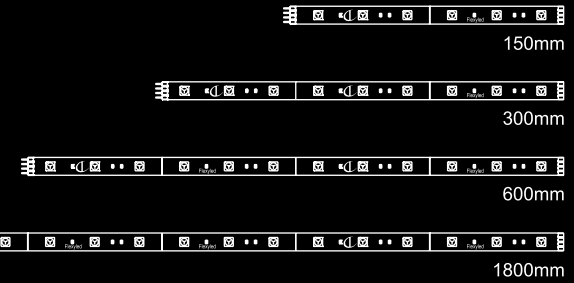

The resin protects each LED strip against moderate mechanical shock and against water splashes (IP44 protection). The high degree of transparency and the circuit's high reflection varnished base offers professional light performance from the unit.

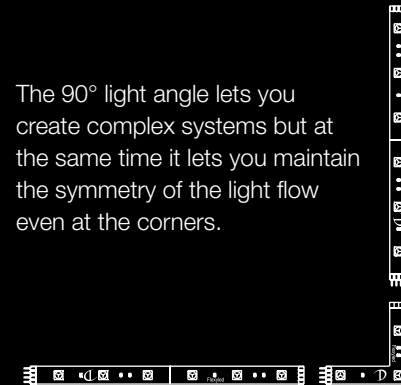

FLEXILED RGB can be easily divided every 75mm (3 LEDs). This lets you create any length with minimum waste.

The highly resistant double sided adhesive provides fast installation without the use of any tools.

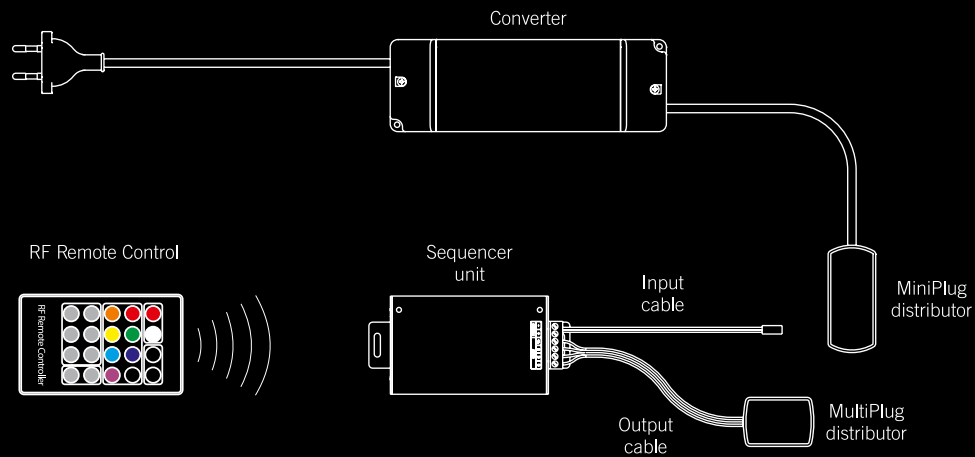

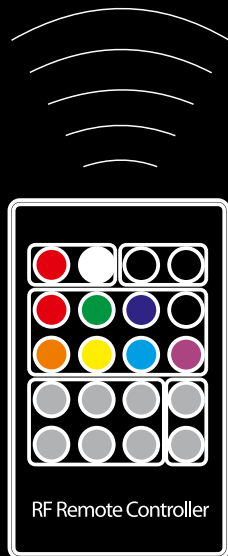

The 90° light angle lets you create complex systems but at the same time it lets you maintain the symmetry of the light flow even at the corners.

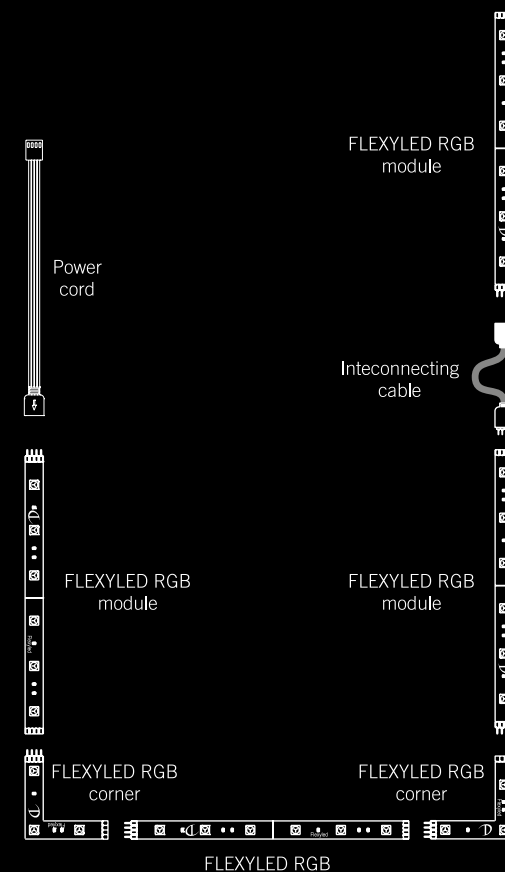

Inter-connection cables are also available for the remote connection of LED strips guaranteeing the electrical continuity.

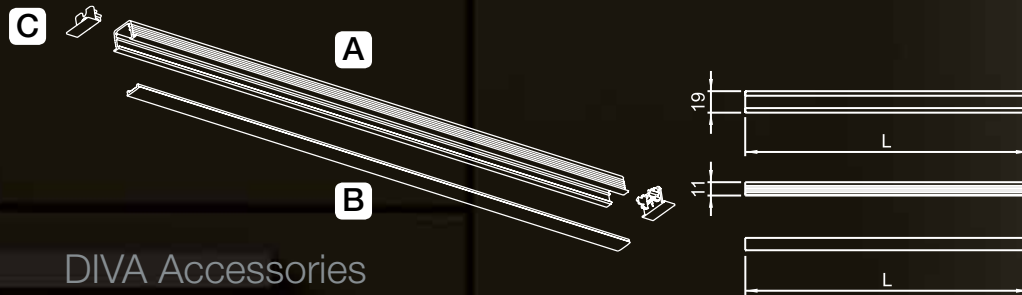

Button	Button Description	Comments
	ON/OFF	switching on – switching off
	play/stop	play or stop LED changing
	brightness increase	the brightness series will add once
	play/stop	the brightness series will reduce once

## TLD V12

Touch LED switch

Code	Input	Output	Load	Finish
TLDV12	12 ÷ 24Vdc	12 ÷ 24Vdc	30÷ 60W	aluminium

The switching on/off of the devices connected to the TLD is carried out with the simple rapid touch of the LED on the TLD. It is possible to adjust the intensity of the light (dimmer function) by maintaining the touch on the LED. A brief flash of the TLD indicates that maximum luminosity has been reached. The luminosity level will be memorized until the next adjustment (level memory). The TLD integrates the “night-light” function which activates only when the devices are switched off. With a high or sufficient level of light environment the TLD LED sends a soft light. With low or no light, the TLD is of a more intense light. During operation of the devices the emitted light by the TLD LED will be proportional to their adjustment.

The “night-light” function can be activated or deactivated by a 15 second touch after which, the deactivation of the function will be notified by 2 slow flashes, or its activation by 3 fast flashes. The TLD is fitted with a safety program that turns off the connected devices after 18 hours of continuous operation. Moreover TLD is endowed with function auto-on that allows the automatic turning on of the appliance as soon as it receives tension from the net through the feeder. The function has been designed for the automatic turning on of the appliance in particular in the show rooms at the daily activation of the electric switches without the necessity to act on every appliance.

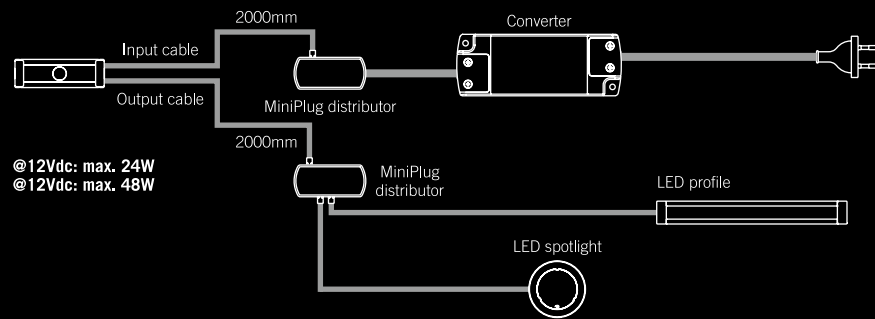

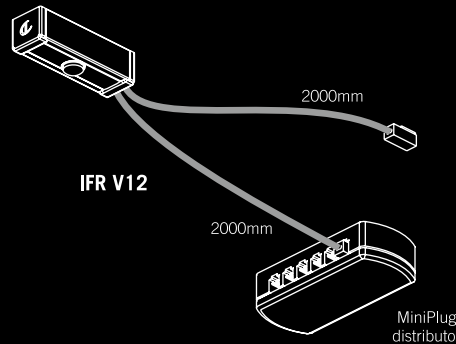

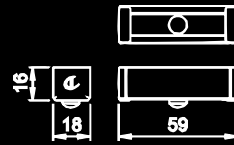

# Sensor

## IFR V12

IFR presence sensor

Code	Input	Output	Load	Finish
IFRV12	220 ÷ 240Vac	12 ÷ 24Vac	24 ÷ 48W	aluminium

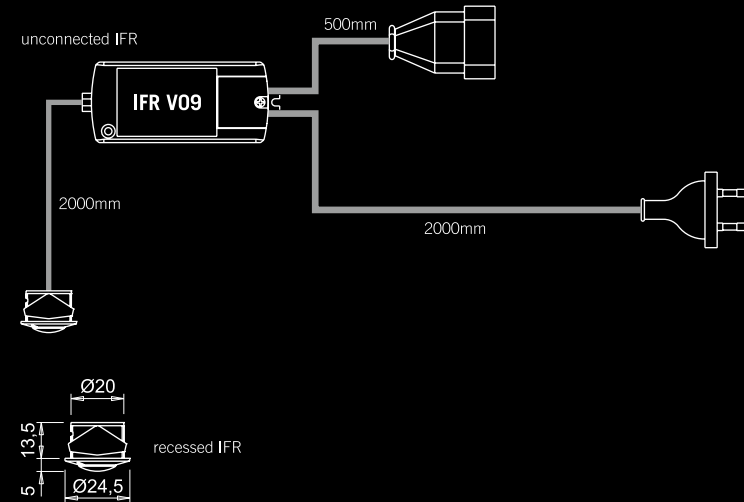

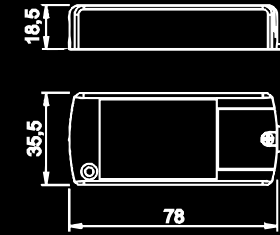

The switching on/off of the devices connected to the IFR is operated through the detection of temperature variations combined to the motion of people, animals and objects with a temperature of around 36°C within its detection range. In this condition the sensor IFR is activated, switching the connected devices on. The system remains active for the whole set time (30 seconds) after which, if no other motion is detected, it switches off automatically. The sensor must not be installed near electromagnetic sources, heat sources or exposed to direct sunlight.

## IFR V09

IFR presence sensor

Code	Input	Output	Load	Finish
IFRV09	220 ÷ 240Vac	12 ÷ 24Vac	150 ÷ 250W	white

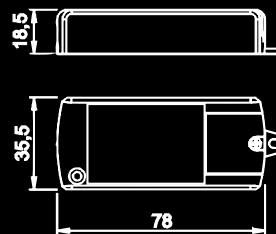

The switching on/off of the devices connected to the IFR is operated through the detection of temperature variations combined to the motion of people, animals and objects with a temperature of around 36°C within its detection range. In this condition the sensor IFR is activated, switching the connected devices on. The system remains active for the whole set time (adjustable between 10 seconds and 3 minutes) after which, if no other motion is detected, it switches off automatically. The sensor must not be installed near electromagnetic sources, heat sources or exposed to direct sunlight.

Code	Input	Output	Load	Finish
SSAL	220 ÷ 240ac	220 ÷ 240Vac	150 ÷ 250W	aluminium
SSWH	220 ÷ 240ac	220 ÷ 240Vac	150 ÷ 250W	white

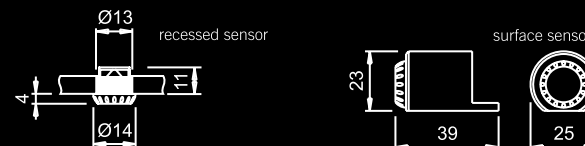

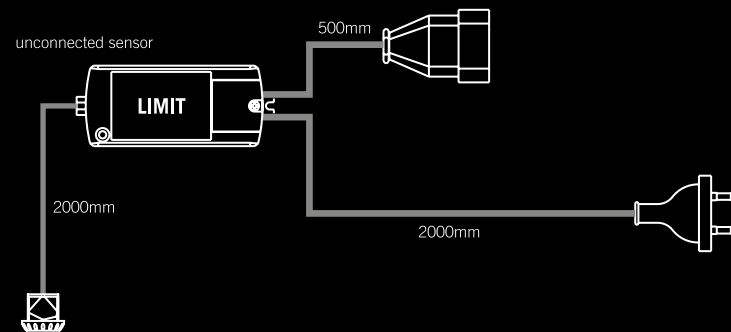

The activation of the device connected to SIMPLY is done by simply moving your hand less than 50mm from the sensor. The same operation, repeated once again, will switch the device off.

## Limit

Infrared limit switch

Code	Input	Output	Load	Finish
LSAL	220 ÷ 240ac	220 ÷ 240Vac	150 ÷ 250W	aluminium
LSWH	220 ÷ 240ac	220 ÷ 240Vac	150 ÷ 250W	white

The switching on of the device connected to the LIMIT occurs when the sensor doesn't detect any object (e.g. one of the flaps) in front of itself (not higher than 50mm). The switching off is activated after the sensor detects a new object. For a perfect functioning of the LIMIT it's recommended to avoid the use of white, bright or reflecting surfaces.

# Carcases

## Features

- 38 different colour options available.
- Colour matched 2mm pvc lipping on all visible edges.
- All Carcasses are supplied with solid backs. 18mm on base units and 8mm on wall units.

# Egger options – uni-colour

For technical reasons connected with colour reproduction, colours shown may not be an exact representation of the actual product. Please ask for a sample before ordering.

# Hettich

The Hettich brand is synonymous throughout the world with quality, innovation and reliability.

# Sensys

Now there's a hinge where form and function are a perfect match: Sensys. Doors close silently, moved gently by an invisible force. With this exclusive self-closing function, plus integrated damping, Sensys delivers a luxury closing experience. Innovation at its best: award-winning design plus perfect functionality means Hettich can offer the perfect hinge with a full range of applications and plate options.

**Currently the only hinge technology available where all hinge options are available as soft-close**

- Integrated damping element
- Silence, design and emotion
- Door closes automatically from 35°

## Easy to fit

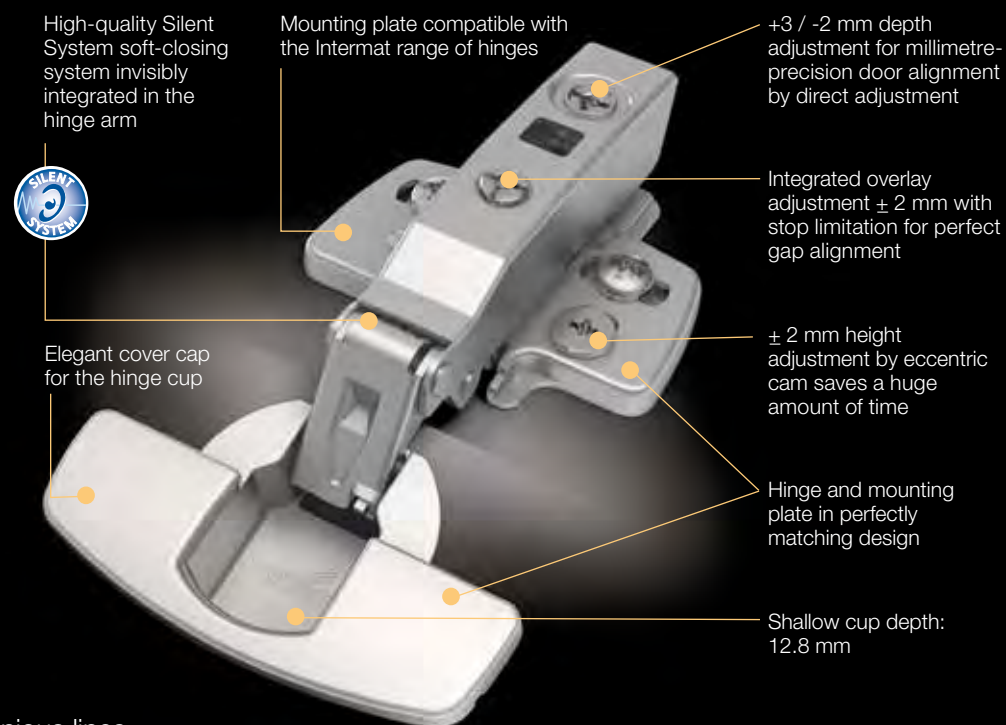

- Sensys is easy to fit and easy to adjust

## Clean and elegant looking

- Sensys has an elegant and contemporary look with simple and harmonious lines

Meets all customer expectations for outstanding design and quality

The Sensys hinge family includes products for all popular door mounting options. See price list for options.

# InnoTech

Completing kitchen ranges at the right level of specification and quality. Giving the market genuine choice, whilst keeping production and inventory lean. This is the InnoTech drawer system. Numerous options, but just one drawer side panel. Flexibility meets efficiency.

## InnoTech Platform concept

- Economic mark of distinction

## 470mm Standard depth drawer system to maximise UK cabinet depths

- Also available in 260mm depth for dresser units

## Multi choice of widths available

- Steel rear panel in standard widths

## Multi choice of materials gives extra differentiation to customer

- Steel sides
- DesignSide, steel TopSide and railing available
- Drawer sides available in Silver as standard
- 4 options for pan drawers

## Multi choice of soft close runners available

- Integrated soft close
- 30 kg, 50 kg and 70 kg available from stock
- Stainless Steel ball bearings used for long life
- Runners tested to 80,000 open/close movements

## Durable, scratch resistant drawer sides

- Powder coating
- Smooth finish

## Easy to clean

- Ease of assembly and adjustment
- Rapid assembly to save time
- Thumbwheel adjustment of front panel height saves time when fitting
- Easy removal and re-connection of drawer fronts

## German engineering at its best

- Offering something that little bit different

## Blum AVENTOS HK

AVENTOS HK components are easy to assemble. Once the lift mechanism has been precisely adjusted to the weight and size of the front, AVENTOS HK will open, close and hold with reliable ease. What's more, AVENTOS HK needs no hinges. Lever arms are closed so there are no projecting parts.

### AVENTOS HK – State-of-the-art stay lifts

International design juries have praised the visual result, and pros appreciate AVENTOS HK as a convenient lift system for mid wall units. The Aventos HK stay lift needs little space – even above fitted cabinets, e.g. above refrigerators.

### Programme

AVENTOS HK stands for a manageable programme and a wide range of planning options.

- Cabinet heights up to 600 mm
- Cabinet widths up to 1800 mm
- Can be used with cornice
- Use with any style of door
- Available in light, medium, heavy, and extra heavy duty depending on weight of door
- Lift mechanisms and front fixing brackets can be used symmetrically

## Easyfit Hinge System

The Easy Fit hinge is a system allowing a standard kitchen fascia to be installed over a freestanding washing machine, tumble dryer or similar appliance. Intended for a 647mm wide door fascia up to 22mm thick. Can be mounted left or right hand. White coated steel.

The East Fit hinge comes with full installation instructions. The Fittings pack contains:

- 1 x 6mm mild steel angle
- 2 x Face Frame Hinges
- 6 x combi screws (4x30)
- 2 x countersunk carcasse screws (4x 30)
- 1 x plastic stopper block

## Blum AVENTOS HF

### AVENTOS HF for Quality of Motion and Freedom of Design

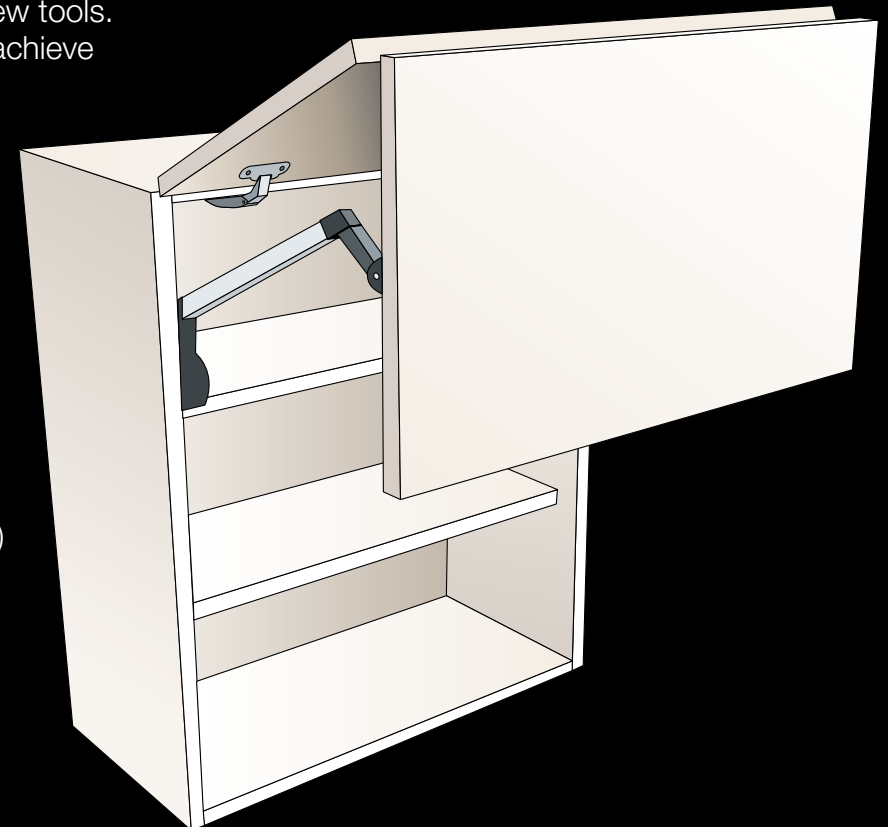

AVENTOS HF is Blum's award winning fitting system for bi-fold fronts. The system provides endless possibilities in planning design with little installation effort. Aventos HF offers direct access, ease of use and freedom of movement.

- Suitable for cabinet 480 – 1040mm high and up to 1800mm wide.
- The Aventos HF is suitable for wooden and aluminium framed fronts
- Aventos HF is designed for quick and easy assembly – with just a few tools. The lift mechanism can be adjusted with a cordless screwdriver to achieve optimal function.
- Aventos HF will open, stop and close with reliable ease.

#### Parts required per Unit:

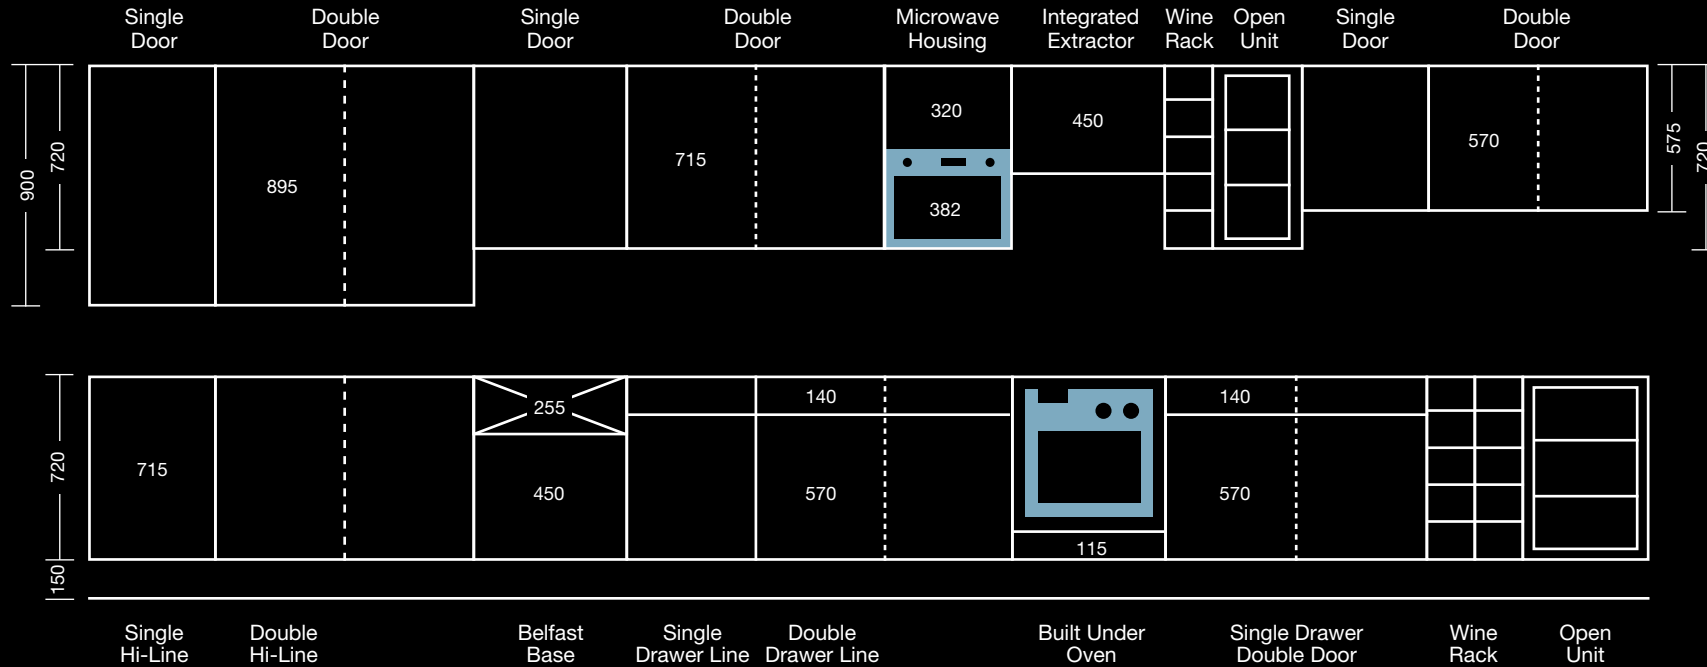

- 1 x Lift Mechanism Set.
- 1 x Lever Arm Set.
- 1 x Pair of front fixing brackets.
- 1 x cover cap set.

To Calculate the correct power factor multiply your cabinet height(mm) by the door weight including handles (KG)
