In-Frame Kitchens

The fundamental design of the in-frame kitchen has withstood the test of time. Whilst the frame surrounding each door is a feature of traditional cabinetry, our in-frame ranges are so versatile, you can create your own look to suit your space and style - however modern or traditional that may be.

By using the highest strengths and qualities of both ash and oak, the Eildon and Baystone in-frame ranges possess all the essential ingredients a kitchen requires to fit into the heart of your home.

Eildon Cream

Eildon Cream blends the traditional and intrinsic elegance of the in-frame with the inherent strength of ash to produce furniture which is both beautiful and durable.

The subtle background wall colour of the Fired Earth 'Bells Green' paint adds further light and style to this impressive kitchen.

Featured Handles: Styles 88 & 89

Contemporary or classic, Eildon is such a versatile range, that even in a modern setting, traditional features such as the over mantle set work in harmony with the rest of the kitchen.

Eildon Oak

With exquisite craftsmanship and the finest choice in timber, the Eildon oak displays the glorious character of European oak in its natural state.

Functional furniture, such as the butchers' modular unit and full height larder doors, make a practical and stylish addition to your kitchen.

Featured Handles: Style 88 & 89

Featured Handles: Styles 16 & 51

Baystone Windsor

Windsor is a move away from the predictability of cream - a timeless design painted in a contemporised country hue. Baystone Windsor simply exudes style and elegance.

<A multifunctional mantle combines both decor with practicality. Brought together through clever design, all your cooking utensils can be hidden away, yet easily accessible.

Baystone Cream

Whether your style is contemporary or traditional, the kitchen is always the heart of the home. The Baystone in-frame is as much an investment into family life as it is to the value of your home.

Here these tall wall units enable maximum storage utilisation, whilst glazed doors break up the design - adding a charming feature to the kitchen.

Featured Handle: Style 02

The inherent characteristics of the timber grain combine with the wide frame and deep centre panel to harvest a timeless classic style.

Timber & Painted Kitchens

Our timber and painted kitchens range from the organic essence of timber through to painted satin finishes - always benefiting from the best in manufacturing and premium quality paints.

This selection combines both classic and contemporary styles with fine Italian craftsmanship.
An array of styles which offer a fashionable solution to the kitchen you most desire.

Rivington Oak

Rivington sets itself apart from other ranges, being a solid oak shaker and complemented with a deep chamfer into the centre panel. It's difficult not to be taken in by the rich tones and varied grains that oak naturally inhibits.

Thoughtful design features such as full height larder doors allow even greater flexibility when choosing interior storage solutions.

Featured Handle: Style 26

Interesting details such as tongue and grooved panels and radius end mouldings help define the design - making it your own.

Abberley Cream

Some designs stand the test of time. Elegant yet fresh. Abberley is a modern classic for today's style and today's home.

Featured Handles: Style 36 & 37

Lansdowne Oak

The Lansdowne is constructed from European oak and finished in a tinted lacquer to reveal its natural qualities and inner beauty. A quintessential design that has become a timeless classic.

Featured Handles: Style 17 & 18

Adding glazed units brings a touch of variation to the room. Fitted with a masterpoint glass, this effect gently obscures the items which sit behind.

Radius end mouldings and curved cornice corner blocks soften the edges of the kitchen - perfect if you're incorporating an island unit.

Meldon Cream

Combined with a full satin paint finish, the Meldon ash kitchen is a wonderful fusion of traditional materials and modern design. The individuality of each piece with its infinitely varied grain is what makes it so special.

Featured Handle: Style 30

Bowfell Oak

Bowfell is an oak door with flair and imagination. A modern twist on the classic shaker style with uncompromising design options - allowing you to create an unmistakably attractive room.

Kitchen islands are becoming more and more popular, used to increase work surface area or to sit at and enjoy meals with friends and family. Our beautifully crafted s-shaped pan drawers also add a lovely flowing character to the kitchen.

Featured Handle: Style 44

Indulge yourself. Curved units accentuate your creativity with a sense of flow and softness - both functional and beautiful.

Featured Handle: Style 44

Bowfell Painted

The Bowfell collection offers a beautiful selection of 12 different painted finishes. The use of colour is a wonderful way to portray your own style and personality. Mix and match complementary colours or contrast for an interesting focal point.

Gloss Kitchens

If there is one symbol of contemporary living it is the gloss kitchen.

Our collection offers a wide choice of colours allowing you to truly personalise your new kitchen. Opt for Welford handleless or Haddington slabs - both are painted and finished in a high gloss lacquer, achieving an unprecedented depth of colour and reflection.

Welford Cream & Willow

The handleless kitchen stands out due to the good organisation and well-considered details. Features such as the full height larder doors allow for convenient storage management, whilst also adding great visual aspects to the kitchen.

The six colours complement each other perfectly, giving you the freedom to combine tones and achieve precisely the effect you desire.

Welford Grey

Continuous sleek lines - even around corners - contribute towards the sophisticated look of the Welford kitchen.

Welford Savanna

Minimalistic design with maximum impact. The Welford handle-free fronts deliver a non-distracting quality to the kitchen.

The stylish simplicity and interplay between materials in this design led to a modest palette of earth, concrete and timber. The result was a kitchen with a beautiful, warm, textural look and feel; taking on a life and personality of its own.

Welford Sky Blue

If you're searching for colour or variety within your kitchen then our gloss doors certainly deliver. Our colours work beautifully on their own or can be combined with great effect to help define the different areas of the kitchen.

For other design options, curved doors and external corner posts can add those extra finishing touches to the end of units. Little additions such as these can help a kitchen feel complete.

Welford Bright White

Encompassing a built in J-handle, Welford delivers both a practical and stylish design, with a comfortable grip, allowing your fingers to glide behind and open with ease.

The Welford White creates an airy feel in the room, providing a greater sense of space. No obtrusive handles, no awkward corners or clumsy afterthoughts.

Mixing cream tones with contrasting design elements, such as black glass or dark chunky wood panels adds designer detail.

Haddington Cream

Haddington high gloss doors are a statement of quality. Whether you choose cream, white, grey, black or burgundy, the richness of colour and depth of gloss is unique to a painted finish.

Featured Handles: Style 20 & 32

Haddington Grey

The softness of grey combines especially well with bold accessories such as the bright yellow splashback. The grey also works in harmony with the oak flooring and timber beams demonstrating just how versatile this fresh modern colour is.

This design takes full advantage of the large mill windows which allow light to flood into the kitchen, really showing off the reflective qualities of the door to maximum effect.

Featured Handle: Style 34

Haddington White

The light reflecting qualities of the Haddington high gloss range are further enhanced with the soft flowing symmetry of internal and external curved doors.

White has often been a preferred choice for many home owners due to the natural perception of cleanliness. Add colour with appliances and utensils to make this kitchen really sparkle and give it a touch of individuality.

Featured Handles: Style 92 & 93

Haddington Black & White

A composition of uncompromising style. Using Haddington White as the backdrop increases the sense of space. The dramatic curved island maximises the depth and functionality of your kitchen, adding a gentle flow throughout.

Featured Handles: Style 34 & 35

Haddington Burgundy

Sleek contemporary wall units are framed with matching gloss end panels, accentuating the mirror-like shine as well as creating a thoroughly modern look.

Featured Handles: Style 18 & 31

Bespoke Colours

Our carefully selected colour palette inspires a touch of individuality. From subtle tones to the most bold, they can be used to complement or contrast to create real impact.

Bespoke colours are available for the Baystone, Bowfell and Rivington ranges.
